PELLET STOVE

BUILT TO A STANDARD NOT A PRICE

ADVANCE PELLET STOVE

The Advance uses Harman PelletPro™ and ESP technology to burn any grade of pellet with even heat and precision control. Basic maintenance can also be performed without shutting down the unit—for true 24-hour heating. A compact footprint with flexible venting options helps put this high-efficiency stove in more spaces.

Advance your home heating. Even heat, easy maintenance and distinctive features make the Advance a smart heating solution “built to a standard, not a price.”

Advance shown with optional stainless trim and log set

PelletPro™ System

The patented PelletPro system makes it possible to burn any grade of pellet fuel with maximum heat and efficiency. A bottom-up feeding system burns each pellet completely and allows for 24-hour heating. To learn more about the PelletPro System, visit HarmanStoves.com.

ESP Temperature Control

Harman pellet stoves utilize an advanced Exhaust Sensing Probe (ESP) system to deliver precision heating control. ESP constantly monitors and adjusts heat output to maintain set room temperatures within 1 degree. To learn more about ESP Temperature Control, visit HarmanStoves.com.

FEATURES & OPTIONS

The Advance is built with an uncompromising commitment to quality. Distinctive features and proven Harman technology deliver ultimate heating convenience.

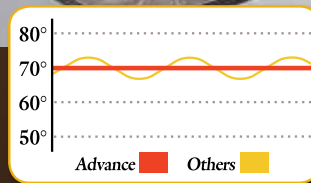

Features

- Automatic ignition and temperature control
- Accordion heat exchanger
- Exclusive door air wash system
- Trim kit¹ (gold, brushed stainless or bright nickel)
- Decorative tile accents¹ (cream or black)

Options

- Ceramic log set
- Outside air kit
- Direct vent wall pass-through

The Advance's **ESP Temperature Control** helps maintain a consistent room temperature.

LIMITED LIFETIME WARRANTY⁶

The strongest in the industry, Harman provides a limited lifetime warranty on most important aspects: firebox and heat exchanger.

¹Trim kit and tile accents required to complete the stove. ²EPA test input. ³See your local authorized Harman dealer for help in determining the product that best suits your heating needs based on climate and home efficiency. ⁴Weighted Average LHV (low heating value) Efficiency. ⁵Minimal hearth pad will not touch walls on corner installation. ⁶For full warranty details, visit www.harmanstoves.com.

Actual product appearance, including flame, may differ from image. Tested by OTHN-Test Laboratories/ASTM E 1509-04, ULC-ORO-C1492-N1990, ULC-S627-00, OAR 814-23-900 through 814-23-909, Mobile Home Approved. Product specifications and pricing subject to change without notice. The images and descriptions in this brochure are provided to assist you in product selection only. Fuel density and pellet shape may affect hopper capacity. Bio's may vary depending on type of fuel used. Refer to installation manual for complete clearance requirements and specifications. Fireplace, stove and insert surfaces get extremely HOT and can cause severe burns if touched. Keep a safe distance away. To learn more visit www.harmanstoves.com/fireplacesafety
