WOODBURNING FIREPLACES
When you're looking for the sensory experience of a woodburning unit, there's something here for every need, every budget.

RUTHERFORD
Offers an authentic masonry look without the expense of a site-built masonry fireplace. Shown with herringbone refractory and mesh screen. Available in 36", 42" and 50" widths.

NORTHSTAR
EPA Phase II certified to meet the strictest environmental standards in the country and capable of producing up to 51,000 BTUs of heat.

EXCLAIM SERIES
The Exclaim series offers viewing areas of magnificent proportions. Shown with standard parting mesh and traditional refractory. Available in 36", 42" and 50" widths.

SIMPLIFYRE ELECTRIC FIREPLACES
Brighten any room with ambiance and versatility. Designed with total placement flexibility and multiple finishing options.

SIMPLIFYRE-26
Simplifyre models offer the most realistic flame technology in an electric fireplace. Shown with modern front.

SIMPLIFYRE-35
The 35" Simplifyre can be installed at any height on a wall or finished with a custom surround. Shown with custom surround.

SIMPLIFYRE-ST
The Simplifyre See-through electric fireplace creates a dramatic room divider that can literally go anywhere. Shown with standard faux bi-fold glass doors and custom surround.

GAS STOVES
A merging of high-tech innovation and high heat efficiency with both traditional and modern looks. Less work, less worry, and just a little more ambiance.

PALOMA
Its vertical configuration and modern, European lines create the look of a freestanding fireplace. Shown with gray curved outer glass and matching optional hearth pad.

TIARA I
Smaller size delivers the right amount of heat for smaller rooms. Shown in espresso finish.

TIARA II
Sturdy cast iron construction heats larger-sized rooms. Shown in cast black.

GAS FIREPLACE INSERTS
The simplest way to convert a cold, drafty fireplace into a warm, airtight unit. So smart when remodeling.

COSMO INSERT
Featuring a unique modern ribbon of flame spreading across the length of the firebox. Available in two sizes. Shown with halo fronts and stone media.

ESCAPE INSERT
Available in two sizes this FireBrick insert offers a large viewing area and high efficiency. Shown with bronze galleria doors, surround and st. cloud shelf mantel.

GRAND-135 & SUPREME-130 INSERTS
Medium or large size offers a generous viewing area and high energy efficiency. Shown with arcadia front and surround in bronze.

SEE-THROUGH
This 36" see-through gas fireplace is our largest see-thru model and can complement any décor and turn any room into a true family space. Shown with aero front in black and electric ember bed.

CORNER
Adds light and warmth to any corner, left or right. Shown with aero front in black.

PIER
Three-sided viewing creates the perfect room divider. Shown with aero front in black and custom tile.

MULTI-SIDED GAS FIREPLACES
There's more than one way to look at a fireplace. And there's more than one place to put one. Perfect for defining spaces, dividing rooms and creating drama.

SOLARIS
Available in two models: Solaris36-ST is the world's thinnest see-through fireplace with a levitating flame and transparent burner. Solaris 36-MR is a two-sided fireplace featuring our infinity flame, which provides a 6-foot deep illusion of flame and lighting effects.

ESCAPE SEE-THROUGH
With its premium construction and spectacular appearance, the Escape 42" See-Through delivers on its "best in class" promise, maximizing enjoyment of the fire. Shown with firescreen front.

METRO SEE THROUGH
This modern-designed 32" see-through gas fireplace combines floor plan flexibility with unmatched style and innovation. Shown with modern front in new bronze.

FIRE BY DESIGN
A true innovator, Heat & Glo embraces its forward-thinking design as much as its advances in heating technology. From design-centric showpieces like the modern Red 40 to the hard-working 6000 product line that started it all, Heat & Glo is able to easily straddle the line between aesthetically-pleasing and forward thinking.

In fact, Heat & Glo's technological innovations have become industry standards over the years. We've invented Direct Vent technology, FireBrick® material and IntelliFire™ systems, which raised the bar for ease of installation, heat insulation and the control of warmth, respectively. When you want cutting-edge technology and innovative style that no one can ignore, choose Heat & Glo.

Heat & Glo has all you need to complete any hearth project. We're ready when you are.

INNOVATION
STYLE
BALANCE

THE CLASSIC COLLECTION OF GAS FIREPLACES

Traditional style meets exceptional options: the compact fit of a Slim Line, the popular 36" size of the 6000 C Series or the 42" viewing area of the 8000 C Series.

6000 C SERIES
A range of features and sizes are available with the C, CL and CLX models. The series delivers the perfect combination of flame, glow and lighting. 36" CLX shown with chateau forge front, portico mantel and absolute black granite.

SL-75OTRS
Only 16-1/4" deep and 36" wide. Shown with Kenwood mantel and optional raised hearth, beige marble and chateau deluxe front in new bronze.

8000 C SERIES
The perfect combination of flame, glow and lighting. The C, CL and CLX models offer a wide range of available features and sizes. The 42" CLX shown with chateau deluxe front in new bronze and st. cloud shelf mantel.

SL-55OTRS
Just 16-1/4" deep and 31" wide. Shown with kenwood cabinet, optional raised hearth base, marron brown marble and halston operable doors in new bronze.

THE DESIGNER COLLECTION OF GAS FIREPLACES

The art and science of the fireplace. When our imaginative selection of unique forms and applications meets state-of-the-art innovation, every room can make a bold statement.

ESCAPE
First, we removed all visible sheet metal, then added innovation after innovation, like accent lighting, FireBrick® technology and clean face design. Shown with firescreen front and prairie ridge companions in bronze.

CERONA-36
Cerona takes serious heat output and stylishly wraps it in a classic arched fireplace. Shown with galleria doors in aged brass and custom surround.

EVEREST WITH ATLAS SURROUND
Shown with atlas cast stone surround in gray and standard black front.

ESCAPE SEE THROUGH
With its premium construction and spectacular appearance, the Escape 42" See Through delivers on its "best in class" promise, maximizing enjoyment of the fire. Shown with arched firescreen front in bronze.

CERONA-42
Performance and efficiency in the only true arched direct vent gas fireplace on the market. Shown with chateau deluxe front and arched trim stone.

CRESCENT II
Designed specifically to slip into corners and tight spots. Shown with bella cabinet and essence front in pewter.

THE MODERN COLLECTION OF GAS FIREPLACES

The striking simplicity of contemporary design meets the effortless convenience of gas technology. It's a powerful combination — one that can take any room from now to wow, instantly.

SOLARIS
Available in two models: Solaris36-ST is the world's thinnest see-through fireplace with a levitating flame and transparent burner. Solaris 36-MR is a two-sided fireplace featuring our Infinity flame, which provides a 6-foot deep illusion of flame and lighting effects.

LUX60
The LUX60 combines modern design, spectacular flames, stainless steel fire tubes and innovative LED accent lighting technology. Shown with LUX60 panels in plated black nickel with black glass media.

COSMO
Downtown, uptown, and everywhere in between, when looks matter, it's your style. Accent the firebox with glass, in four cool colors to warm up your flame. Shown with tonic front in fog with black glass media.

RED SERIES
Customize with a variety of stone and glass media options, LED lighting, and porcelain or granite refractory liners. Shown with scarlet glass media, LED accent lighting and absolute black granite surround. Available in 40", 40" See Through and 60" models.

METRO 32
The Metro 32 has a shallow footprint for easy placement, a porcelain interior firebox with custom media options, and a modern look that will match your décor. Shown with modern front in fog.

PALOMA™
Combines sleek lines and European styling with innovative thinking and finely detailed construction. Shown with gray curved outer glass and matching optional hearth pad.

GAS FIREPLACES WITH FIREBRICK®

Our exclusive FireBrick creates the world's only seamless, ceramic fiber firebox with a brick pattern—replicating the look of masonry, providing wonderful radiant heat.

CERONA-42
Performance and efficiency in the only true arched direct vent gas fireplace on the market. Shown with chateau deluxe front and arched trim stone.

CERONA-36
Cerona takes serious heat output and stylishly wraps it in a classic arched fireplace. Shown with valencia front in new bronze and custom surround.

ESCAPE-42
Innovation after innovation makes it the best of the best. Shown with bronze Firescreen front, prairie ridge companions and sierra log shelf.

OUTDOOR LIFESTYLES BY HEARTH & HOME TECHNOLOGIES

Fireplaces, firepits and more. Turn an ordinary deck or patio into an extraordinary entertainment space.

CAROLINA
Fully featured and ready for a custom finish, this gas fireplace is easy to install, burns beautifully, and has a compact footprint for almost any patio, deck, or veranda. Available in 36" and 42" models.

CASTLEWOOD
The clean, simple lines of this 42" wood fireplace, along with the optional glass doors, complement any outdoor space. Shown with optional glass doors.

TWILIGHT II
The world's first indoor/outdoor see-through gas fireplace.
