PIER SERIES

Multi-Sided Direct Vent Gas Fireplaces

PIER SERIES

There's more than one way to look at a gas fireplace.

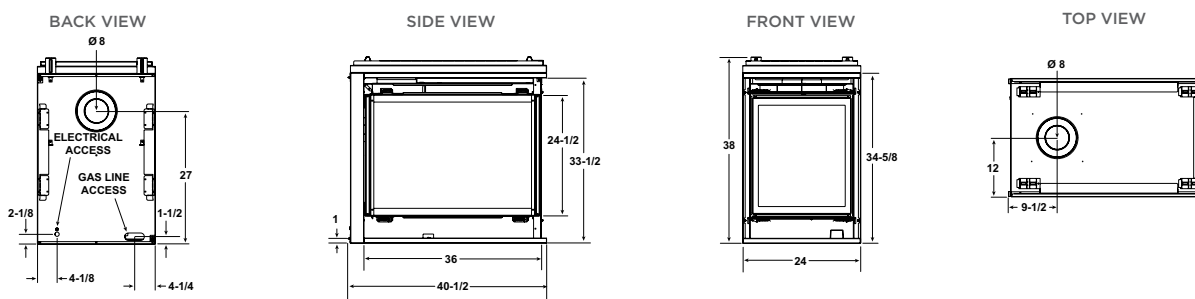

A unique multi-sided fireplace, our Pier provides three-sided viewing and works perfectly as a room divider or even the base of a bar. A beautiful look for year-round enjoyment, this unique gas fireplace includes standard metal refractory, a massive log set and glowing electric embers. Truly an elegant fire with plenty of efficient heat. With a large variety of fronts to choose from, the Pier can complement any décor and turn your room into a constant family space.

Cover & Right: PIER-36TR shown with chateau deluxe front, electric ember bed and custom shelf mantel.

PIER SERIES SPECIFICATIONS

Dimensions above are in inches. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.

FEATURES & BENEFITS

- Installed junction box for optional fan or remote
- Sealed combustion chamber for healthy indoor air quality
- In case of power failure, gas fireplaces from Heat & Glo with IntelliFire ignition will continue to operate.
- Standard mesh screen eliminates glass glare and prevents accidental contact
- Rich, natural-looking fire makes any model home feel like home.
- PIER-36TR comes with ceramic burner, electric ember bed, and wall control standard

INTELLIFIRE™

Our exclusive, state-of-the-art IntelliFire ignition system reduces gas consumption and thermogenerator wear by providing a pilot flame only when needed. It also supplies a back-up battery system to run the fireplace during a power outage.
