High Back Porch Rocker
39.75" H x 24" W x 35"D

Swivel Glider
35" H x 28" W x 31.5"D

Caring For Lloyd Flanders® Woven Vinyl Casual Furniture

Lloyd Flanders® uses only premium Polyethylene woven materials for our luxury outdoor furniture. While this material is designed to endure the outdoor environment, it is beneficial to make sure the product is cleaned and maintained for your ultimate satisfaction.

Vacuum or use a soft brush on woven material and cushions to remove organic material and loosen surface soil. Wash with a mild detergent and clean water solution to remove soil. Rinse and allow to dry thoroughly before use.

Caring For Lloyd Flanders® Cloud Cushioning

Cushions upholstered in Sunbrella® or other solution dyed acrylic fabrics may be cleaned with one cup of chlorine bleach diluted in one gallon of water with a small amount of mild detergent. Test in a small inconspicuous area. Saturate a cloth or soft brush with the solution. Scrub the entire cushion and rinse well with clean water and let air dry.

Printed acrylic fabric may be scrubbed with a solution of mild detergent and warm water. Do not use bleach. Rinse and air dry. Do Not Put In Dryer Or Send Out To Dry Cleaners.

If excessive waters accumulates in the cushion, stand upright with the open zipper or seam side down. The cushion should dry quickly as this facilitates the draining of the water through the fibers.

About Lloyd Flanders Antiqued Teak

Lloyd Flanders Antiqued Teak Tables bring a distinct, lasting style to your outdoor space. Sustainably harvested from Brazilian teak trees, each piece receives a gray finish designed to produce the antique appearance and preserve the natural color longer than traditional teak.

Add this versatile line of occasional, dining, and umbrella tables to your outdoor seating for the premium outdoor living experience.

Caring For Your Antiqued Teak Furniture

Your new teak furniture is easily maintained and only needs periodic cleaning to ensure years of service. First, the teak furniture should be washed down with fresh water. Avoid the use of high pressure or “power washers” as this pressure can affect the surface of the teak. Scrub the wet furniture using a soft bristle brush and a solution of mild detergent and warm water. When finished, rinse the furniture with clean water to remove any detergent.

You may wish to use one of the teak cleaners available at your local home improvement or hardware stores to clean your furniture. If you choose to do so, please follow the instructions on the label to ensure proper cleaning.

Teak furniture may be left out of doors all year. Excessively warm or freezing temperatures will not harm your furniture. If you choose to store your furniture when not in use, it is recommended that the furniture is placed in a dry, unheated space.
